2

Process and Model

Definition

A *design* is
a model or set of models
of a projected construction
produced by a deliberate process.

What is a Model?

Design Process

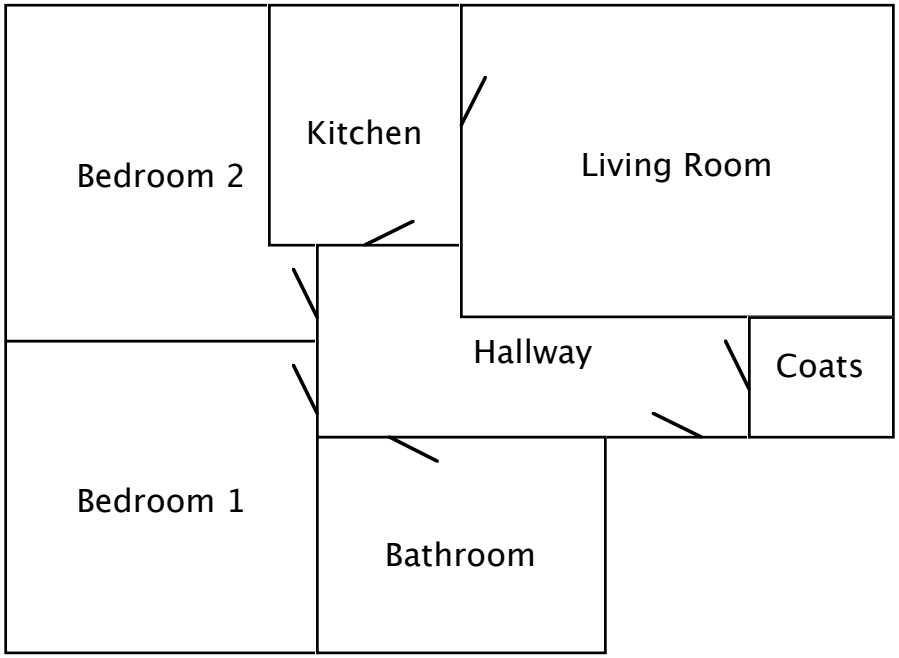
Development Process

Moving House

what is a model?

design process

development process



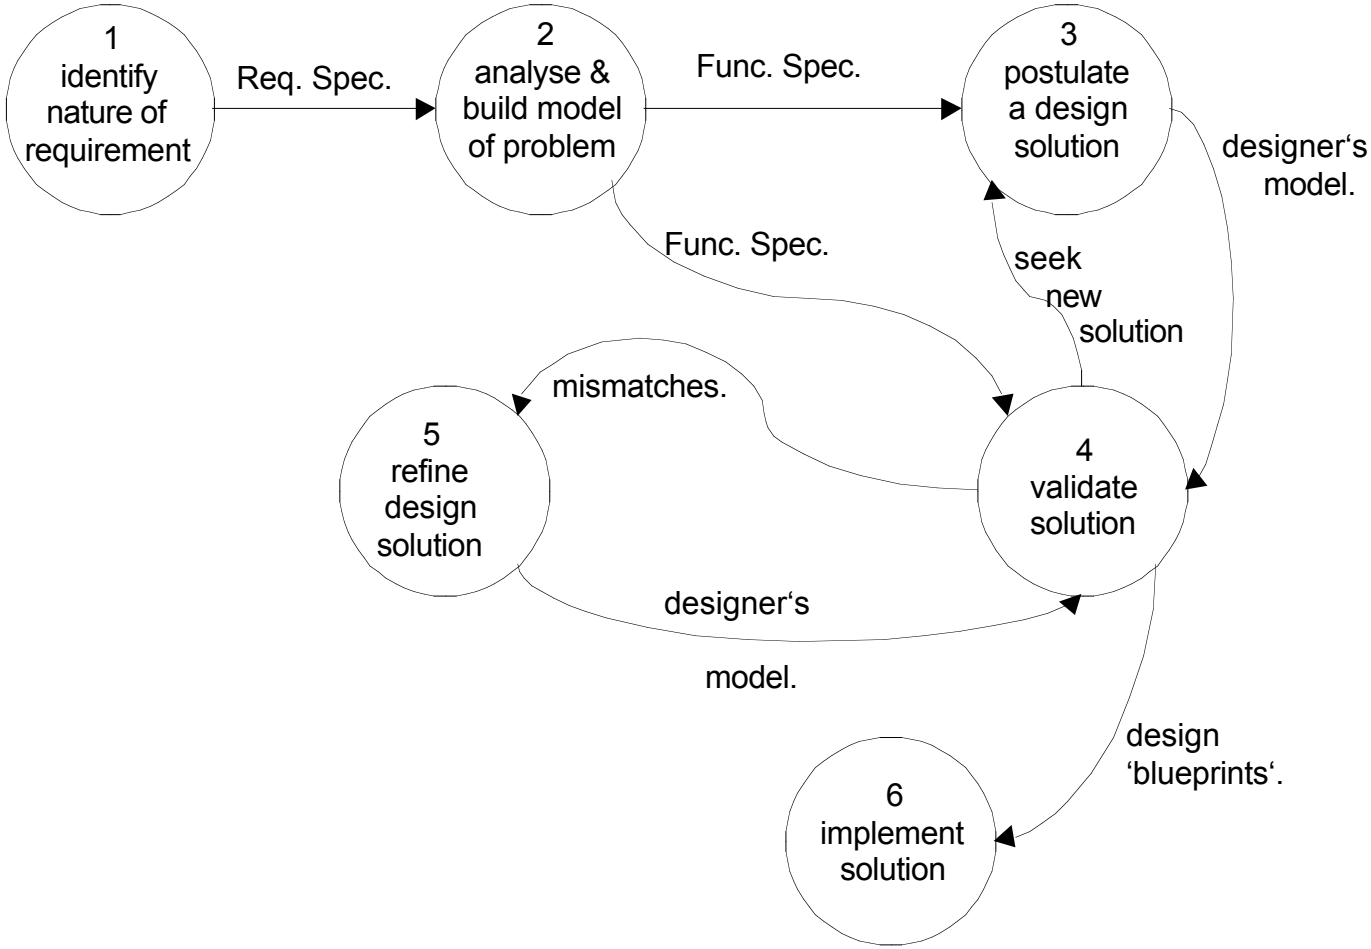
[after Budgen, p 9]

A General Design Process

what is a model?

design process

development process



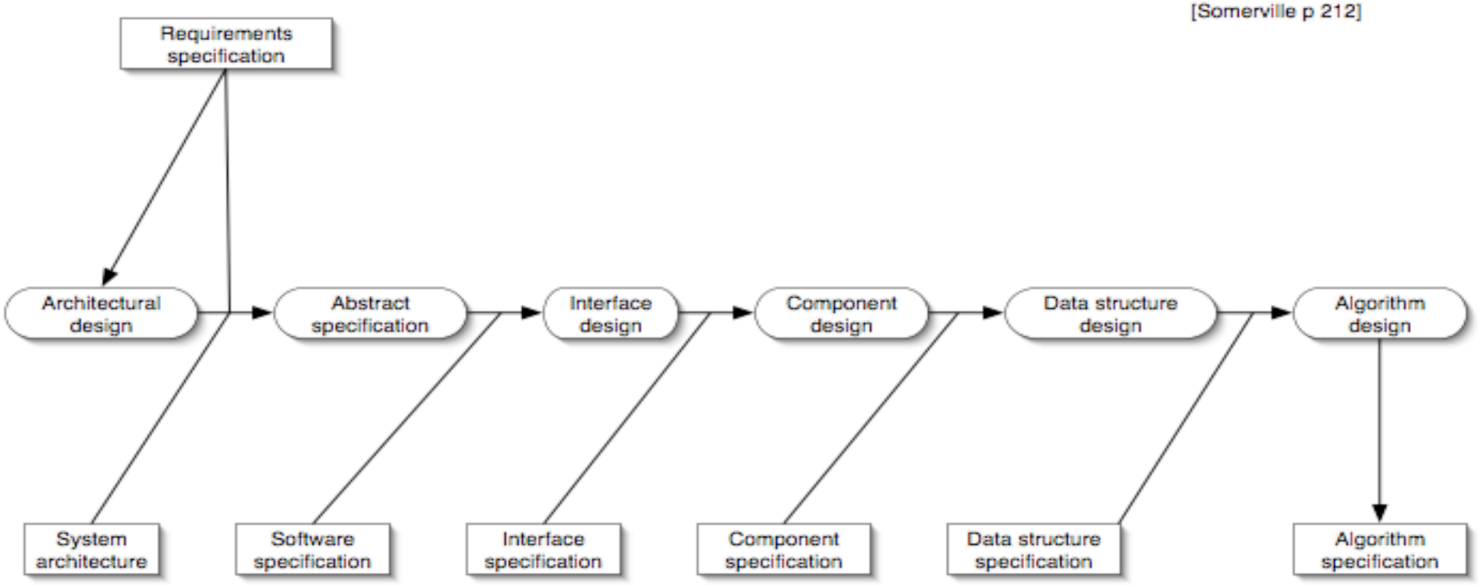
A Linear Design Process Showing Work Products

what is a model?

design process

development process

[Somerville p 212]

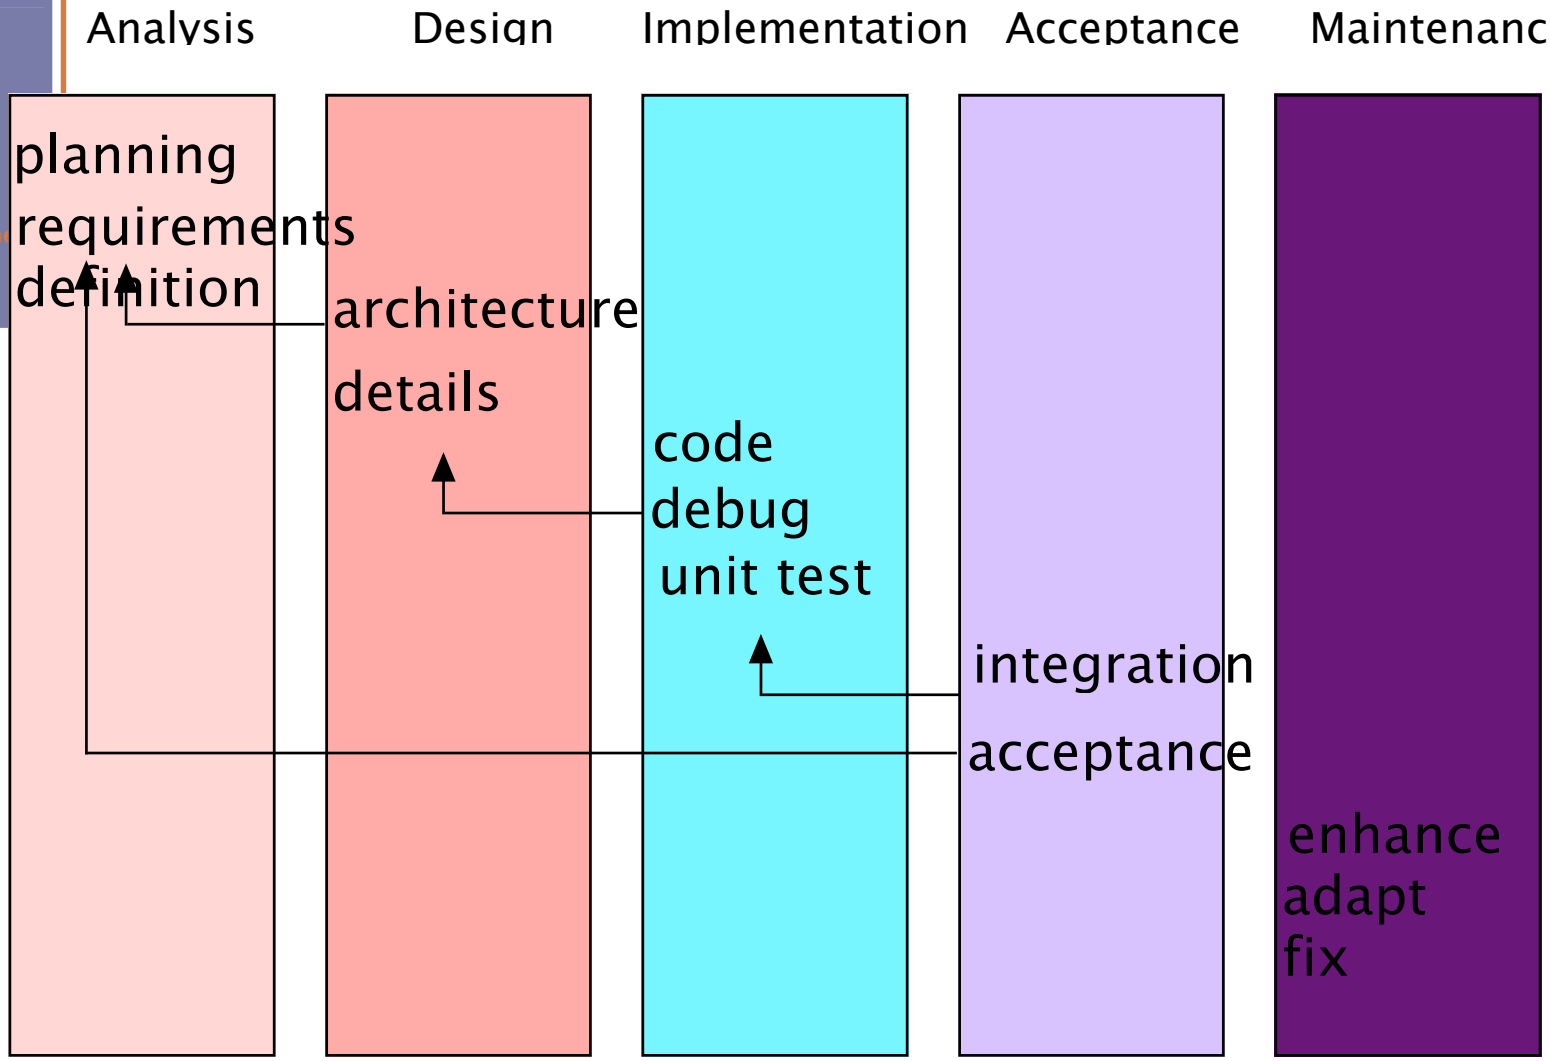


The Waterfall Process of Software Development

what is a model?

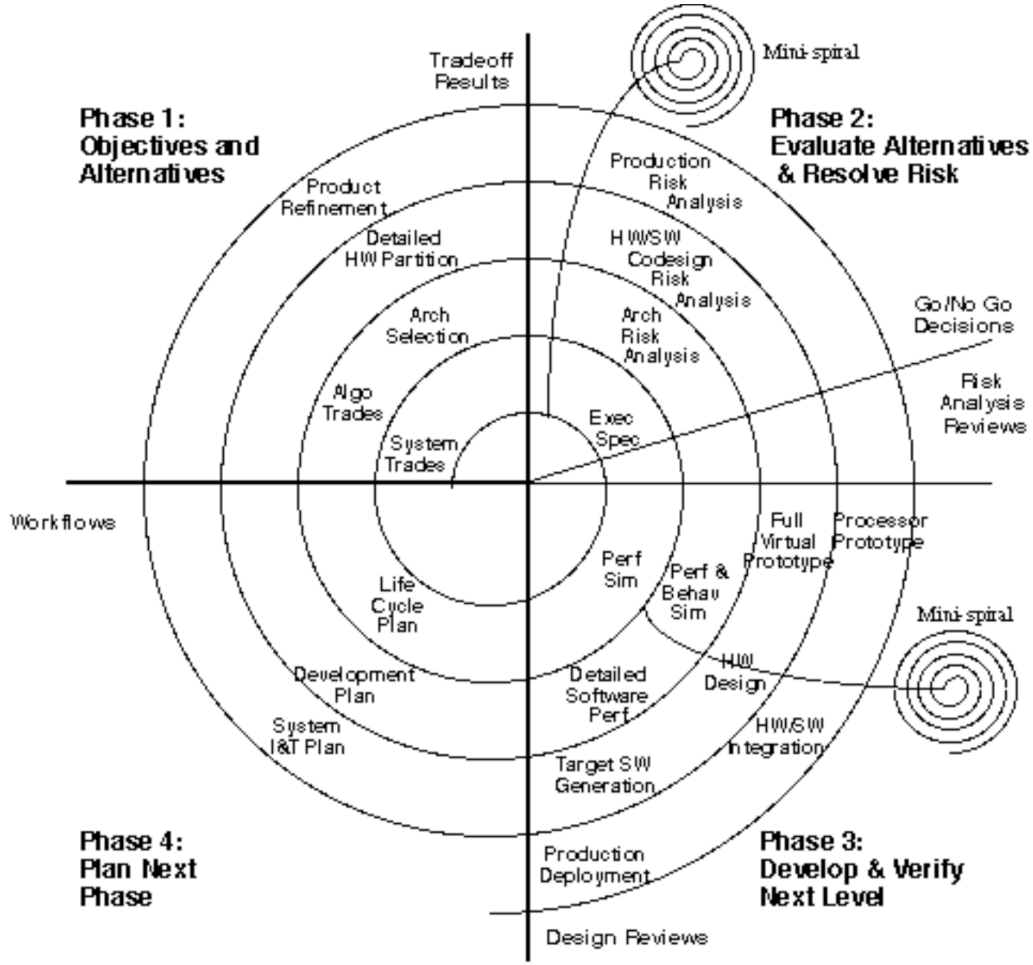
design process

development process



after Fairley 1985, p 42

The Spiral Process of Software Development

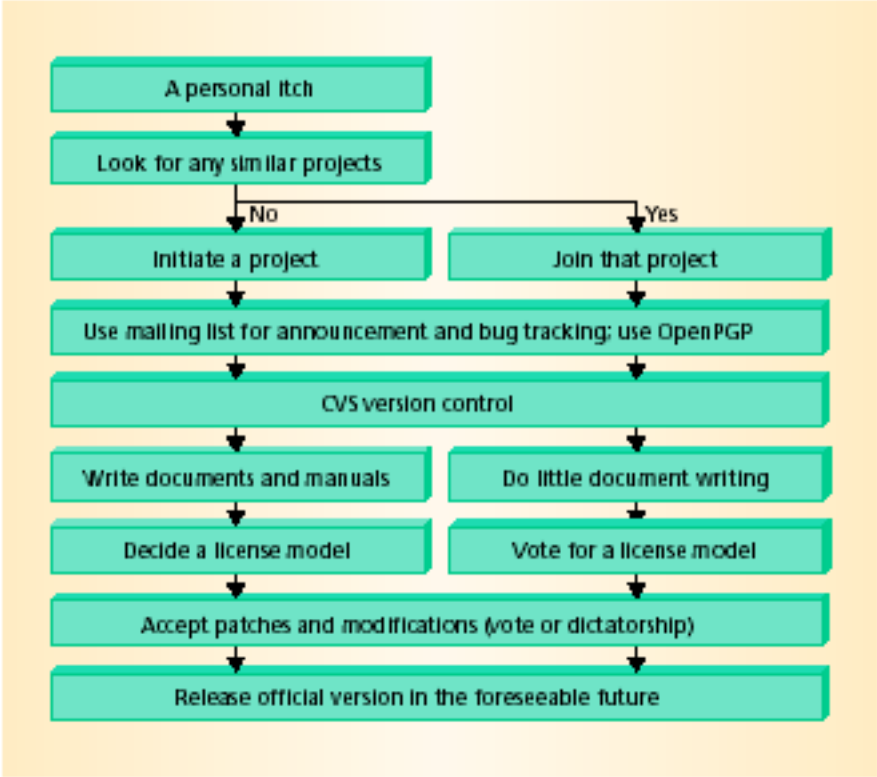


A General Open Source Process Model

what is a model?

design process

development process



after Wu & Lin 2001
