Exams

- Midterm Exam
  - Friday Feb 28 at 6:30 PM
  - 20% of grade

- Final Exam
  - Wednesday April 08 7:30 PM
  - 40% of grade

Important:
You must pass the weighted exam average to pass the course.

- If you get 60% on the midterm (12/20) and 40% on the final (16/40), then your weighted exam average is 28/60 and you will not pass the course (regardless of the rest of your course mark).

- If you get 35% on the midterm (7/20) and 60% on the final (24/40), then your weighted exam average is 31/60 and you can pass the course (assuming you get at least 19/40 for the rest of your course mark).
Passing the Course

To know what your final grade should be to pass,

\[(0.2 \times \text{Midterm}) + (0.4 \times \text{Final}) \geq 30\]

\[\text{Final} \geq (30 - 0.2 \times \text{Midterm}) / 0.4\]

Final grade should be at least $75 - 0.5 \times \text{Midterm}$
Example

if you got 50% on the midterm, your final grade should be at least $75 - 0.5 \times \text{Midterm}$, which is ...

$$= 75 - 0.5 \times (50)$$

$$= 75 - 25$$

$$= 50$$

So, your final grade should be at least **50%**
