Here is a list of common errors provided by the graders for assignment 2.

**General**

- Some students did not include parameter names in the purpose.
- Many students missed require field in both Q2 and Q3
- Many students did not sufficiently test their code
- Some students enumerated cases when there was a simpler approach
- Some students used very long purpose statements
- Some students copied purpose from assignment

**Question 1**

- Many students used unnecessary conditions in their code
