CS 137: Assignment #0
Due on Thursday, September 14th, 2017 at 9:00pm

Carmen Bruni
Submit all programs using the Marmoset Submission and Testing Server located at

https://marmoset.student.cs.uwaterloo.ca/

For help with this assignment, see the Lab Guide on the Tutorial Notes page on the course webpage. It will help you to set up your computer for the course and help you complete this assignment. We will be going through the Lab Guide in the Lab on Tuesday, September 12th (see course schedule).

**Problem 1**

Create a C program named `hello.c` that prints “Hello World!” (with no quotes) followed by a newline character.
